SUBJECT INDEX

Acquired immune deficiency syndrome (AIDS)
  education program for nurses in Romania, 68-73
Acute lymphocytic leukemia
  families of children with, 44-50
  venipuncture vs. central venous access for methotrexate, 189-193
Adjustment
  during cancer treatment, instruments to measure *(abstract)*, 94-95
  psychosocial, of young adult survivors of childhood cancer, 139-140
Adolescents, with cancer
  deciding to end curative or life-sustaining efforts for *(abstract)*, 94-95
  leisure-time physical activity and psychosocial well-being in, 180-188
  perception of vasoocclusive pain *(abstract)*, 97-98
  resilience in

conceptual understanding of, 35-43
review of literature, 78-89
virtual reality for distraction in lumbar punctures *(abstract)*, 98
Adulthood
psychosocial impact of surviving childhood cancer into young, 126-135
Advanced practice nursing
role of pediatric nurse practitioner in inpatient oncology setting, 58-65
commentary, 66-67
see also Pediatric nurse practitioner
AmBisome
toxicity of, vs. conventional amphotericin B *(abstract)*, 94
Ambulatory care
development of model for pediatric oncology nursing *(abstract)*, 104-105
moving 5-day chemotherapy infusions from inpatient to *(abstract)*, 108
Amifostine
critical path for administration and study of *(abstract)*, 110-111
nurses' role in Phase I drug trials *(abstract)*, 109-110
Amphotericin B
toxicity of, vs. AmBisome *(abstract)*, 94
Association of Pediatric Oncology Nurses (APON)
proceedings of 22nd annual conference, 93-113
1998 award winners, 93
clinical paper and poster abstracts, 104-113
education paper and poster abstracts, 100-103
research paper and poster abstracts, 94-99

Bereavement
joint oncology program for *(abstract)*, 106
Blood transfusions
for elective surgery using preoperative recombinant erythropoietin *(abstract)*, 109
Bone marrow transplantation
nasogastric tube feeding in *(abstract)*, 111-112
nursing care for patients on respigam *(abstract)*, 112-113
staff education program on monoclonal antibodies *(abstract)*, 102-103

Carboplatin
in ICE chemotherapy, with peripheral blood progenitor cell support *(abstract)*, 105-106
Cardiotoxicity
in young adult survivors of childhood cancer, 137-138
Central venous catheter
infections related to, and swimming, 51-56
medicated dressings and infection rate *(abstract)*, 98-99
vs. venipuncture, for methotrexate in leukemia patients, 189-193
Chemotherapy
ifosfamide-carboplatin-etoposide (ICE), with peripheral blood progenitor cells (abstract), 105-106
moving from inpatient to outpatient *(abstract)*, 108
venipuncture vs. central venous access for methotrexate in leukemia patients, 189-193
Childhood Cancer Survivor Study, 172-175
see also Survivors, of childhood cancer
Clinical nurse specialist (CNS)
vs. role of pediatric nurse practitioner in inpatient oncology setting *(commentary)*, 66-67
Cognitive late effects
of childhood cancer treatment in young adult survivors, 146
Comfort, for patients
Spinoza the Bear *(abstract)*, 107-108
Companionship, for patients
Spinoza the Bear *(abstract)*, 107-108
Comprehensive care
for young adult survivors of childhood cancer, 140-141
Computers
staff development through Web-based technology *(abstract)*, 100
Y2K problem, 90-92
Coping
by Hong Kong pediatric oncology nurses *(abstract)*, 99-100
parental, during invasive procedures for childhood cancer, 3-13
Spinoza the Bear *(abstract)*, 107-108
Corticosteroids
palatability and cost comparison of five liquid formulations, 74-77
Cost issues
comparison of five liquid corticosteroid formulations, 74-77
Cranial vault surgery
blood transfusions in, and preoperative recombinant erythropoietin *(abstract)*, 109
Critical pathways
for administration and study of amifostine *(abstract)*, 110-111

Death
experiencing a "good" death *(abstract)*, 106-107
joint oncology bereavement program *(abstract)*, 106
Decision making
ending curative or life sustaining efforts *(abstract)*, 94-95
parents' preferences for participation in, 13-24
whether to participate in Phase I trials *(editorial)*, 12
Distraction
virtual reality for, in lumbar punctures in adolescents *(abstract)*, 98
Distress behaviors
during invasive procedures, 3-12
DNA repair genes
genetics and cancer, 164-165
Dopamine
lowdose *(abstract)*, 112
Dressing, medicated
effect on central venous catheter infections *(abstract)*, 98-99

Drug trials, *see* Phase I trials

Education, patient/family
  assessment of approaches for *(abstract)*, 101-102
  game of cancer facts as tool for *(abstract)*, 100-101
  on genetics and cancer, 168-170
Education, staff
  monoclonal antibodies program *(abstract)*, 102-103
  through Web-based technology *(abstract)*, 100
Educational concerns
  of young adult survivors of childhood cancer, 138-139
Educational specialist
  role for nurse practitioner as advocate for young adult survivors of childhood cancer, 145-155
Educational system
  guide for nurse practitioners, to meet needs of childhood cancer survivors, 145-155
End-of-life decisions
  for children or adolescents with cancer *(abstract)*, 94-95
Erythropoietin, recombinant
  blood transfusions in children undergoing elective surgery using *(abstract)*, 109
Etoposide
  in ICE chemotherapy, with peripheral blood progenitor cell support *(abstract)*, 105-106
  moving 5day infusions from inpatient to outpatient *(abstract)*, 108

Families, of children with cancer
  assessment of educational approaches for *(abstract)*, 101-102
  cancer facts game as education tool for *(abstract)*, 100-101
  of children with acute lymphocytic leukemia, 44-50
  see also Parents *and* Siblings
Family histories
  updating genetic, 167
Fellow, pediatric oncology
  vs. role of pediatric nurse practitioner in inpatient setting *(commentary)*, 66-67
Fertility issues
  in young adult survivors of childhood cancer, 137
Follow-up care, *see* Survivors
Fungal infections
  toxicity of AmBisome vs. amphotericin B *(abstract)*, 94

Genetic counseling
  making referrals for, 167-168
Genetic testing, 165
Genetics
  cancer and, 156-171
    implications for cancer care, 166-170
    landmarks in, 160-162
    molecular medicine, 165-166
    resources for, 169
    terminology, 157-160
Graft-versus-host disease
  staff education program on monoclonal antibodies *(abstract)*, 102-103
Granulocyte colony stimulating factor (GCSF)
  clinical and economic impact on febrile neutropenia *(abstract)*, 104
  ICE chemotherapy with peripheral blood progenitor cell support for recurrences (abstract), 105-106

Hepatitis C
  in young adult survivors of childhood cancer, 138
Hong Kong
  stress and coping by pediatric oncology nurses in *(abstract)*, 99-100
Human immunodeficiency virus (HIV)
  education program for nurses in Romania, 68-73

ICE chemotherapy
  with peripheral blood progenitor cell support *(abstract)*, 105-106
Ifosfamide
  in ICE chemotherapy, with peripheral blood progenitor cell support *(abstract)*, 105-106
  moving 5day infusions from inpatient to outpatient *(abstract)*, 108
Infections
  central venous catheter-related
    effect of medicated dressings on rate of *(abstract)*, 98-99
    swimming and, 51-56
Informational needs
  of parents, for treatment decision making, 13-24
Infusion-related reactions
  of AmBisome vs. conventional amphotericin B *(abstract)*, 94
Inpatient settings
  comprehensive management by pediatric nurse practitioners in, 58-65
    commentary, 66-67
  moving 5-day infusions to outpatient from *(abstract)*, 108
Insurance issues
  for young adult survivors of childhood cancer, 139
International nursing
  AIDS education program for nurses in Romania, 68-73
  stress and coping by Hong Kong nurses *(abstract)*, 99-100
Internet
  staff development through Web technology *(abstract)*, 100
Invasive procedures
  parent coping and child distress behaviors during, 3-12
Investigational cancer treatment
  families' decision to participate in *(editorial)*, 1-2

Late effects, of cancer treatment
  educational concerns in young adult survivors of childhood cancer, 145-155

Learning problems
in young adult survivors of childhood cancer, 145-155
Leisure-time physical activity
and psychosocial well-being in adolescents after cancer diagnosis, 180-188
Leukemia
acute lymphocytic
families of children with, 44-50
venipuncture vs. central venous access for methotrexate, 189-193
Liquid medications
palatability and cost of five corticosteroid formulations, 74-77
Lumbar punctures
virtual reality for distraction in adolescents *(abstract)*, 98

Management
role of pediatric nurse practitioner in inpatient oncology setting, 58-65
Media
Y2K and computer vestige, 90-92
Medical needs
emerging, of young adult survivors of childhood cancer, 136-144
Medicated dressing
effect on central venous catheter infections *(abstract)*, 98-99
Medications
palatability and cost of five liquid corticosteroid formulations, 74-77
see also Chemotherapy
Methotrexate
venipuncture vs. central venous access for, 189-193
Molecular biology
cancer and genetics, 156-171
implications for cancer care, 166-170
landmarks in, 160-162
molecular medicine, 165-166
resources for, 169
terminology, 157-160
Monoclonal antibodies
staff education program on *(abstract)*, 102-103
Motherhood
in childhood cancer survivor *(Roadmaps)*, 176-178

Nasogastric tube feeding
in pediatric bone marrow transplant patients *(abstract)*, 111-112
Neutropenia, chemotherapy-induced
impact of granulocyte colony stimulating factor in *(abstract)*, 104
toxicity of AmBisome vs. amphotericin B in *(abstract)*, 94
Nurse practitioners, pediatric (PNP)
as advocates for childhood cancer survivors in educational system, 145-155
educational deficits due to cognitive late effects, 148-149
monitoring educational concerns in follow-up clinic, 149-150
risks for educational complications, 146-148
the school system, 151-154
comprehensive management by, in inpatient oncology setting, 58-65
commentary, 66-67
role in long-term care of childhood cancer survivors, 121-122
Nurses, pediatric oncology
in Hong Kong, stress and coping mechanisms *(abstract)*, 99-100
perception of vasoocclusive pain in adolescents *(abstract)*, 97-98
role in Phase I trials of amifostine *(abstract)*, 109-110
Nursing profession
celebration of *(editorial)*, 57
Nutritional support
nasogastric tube feeding for bone marrow transplant patients *(abstract)*, 111-112

Occupational concerns
of young adult survivors of childhood cancer, 138-139
Oncogenes
genetics and cancer, 163-164
Osteoporosis
in adult survivors of childhood cancer, 137
Outpatient care, *see* Ambulatory care

Pain
vaso-occlusive, adolescents' and nurses' perception of *(abstract)*, 97-98
Palatability
of five liquid corticosteroid formulations, 74-77
Parents, of children with cancer
coping during invasive procedures, 3-12
decision to participate in Phase I trials *(editorial)*, 1-2
end-of-life decisions *(abstract)*, 94-95
information needs of, 13-24
preferences for participation in treatment decision making, 13-24
see also Families
Patient education, *see* Education, patient/family
Patients
looking back on most unforgettable *(editorial)*, 179
Pediatric nurse practitioner (PNP)
as advocates for childhood cancer survivors in educational system, 145-155
educational deficits due to cognitive late effects, 148-149
monitoring educational concerns in follow-up clinic, 149-150
risks for educational complications, 146-148
the school system, 151-154
comprehensive management by, in inpatient oncology setting, 58-65
commentary, 66-67
role in long-term care of childhood cancer survivors, 121-122

Peripheral blood progenitor cells
support with after ICE chemotherapy for recurrences *(abstract)*, 104-105
Phase I trials
families' decision to participate in *(editorial)*, 1-2
of amifostine, nurses' role in *(abstract)*, 109-110
of amifostine, critical path for *(abstract)*, 110-111
Physical activity
leisure time, and psychosocial well-being in adolescents after cancer diagnosis, 180-188
Posttraumatic stress disorder
in young adult survivors of childhood cancer, 126-135
clinical implications, 132-133
diagnosis, 127-128
in transition to young adulthood, 130-132
Pregnancy
in adult survivor of childhood cancer *(Roadmaps)*, 176-178
Procrit
blood transfusions in children undergoing elective surgery using preoperative (abstract), 109
Psychosocial impact
of surviving childhood cancer into young adulthood, 126-135
Psychosocial needs
of young adult survivors of childhood cancer, 136-144
Psychosocial research
implementation of *(abstract)*, 96-97
Psychosocial well-being
leisure-time physical activity and, in adolescents after cancer diagnosis, 180-188

Recurrent tumors
ICE chemotherapy with peripheral blood progenitor cell support *(abstract)*, 104-105
Reproductive issues
in young adult survivors of childhood cancer, 137
Research
Childhood Cancer Survivor Study, 172-175
methodological triangulation, in study of social support for siblings, 194-200
on psychosocial interventions, implementation of *(abstract)*, 96-97
Resilience
in adolescents with cancer
conceptual understanding of, 35-43
review of literature on, 78-89
Respigam
nursing care of bone marrow transplant patient on *(abstract)*, 112-113
Respiratory syncytial virus
nursing care of bone marrow transplant patients on respigam *(abstract)*, 112-113
Roadmaps column
advancing roles, 214-215
pregnancy in adult survivor of childhood cancer, 176-178
Romania
AIDS education program for nurses in, 68-73

School re-entry
changes in school behavior on *(abstract)*, 95-96
School system
nurse practitioners' role as advocate for childhood cancer survivors in, 145-155
Second malignancies
in young adult survivors of childhood cancer, 138
Siblings, of children with cancer
literature review, 25-34
coping strategies, 29-30
effects on during illness, 26-27
facilitative behaviors, 30
minimal effects of cancer experience on, 28
nursing support for, 30-31
positive effects on, 27-28
predictors of adjustment, 28-29
response following patient death, 25-26
methodological triangulation in study of social support for, 194-200
Side effects
long-term, in young adult survivors of childhood cancer, 137-138
Skin cancer
in young adult survivors of childhood cancer, 128
Social support
for siblings of cancer patients, triangulation in, 194-200
in children with cancer, literature review, 201-213
Spinoza the Bear
for comfort and companionship *(abstract)*, 107-108
Staff development
through Webbased technology *(abstract)*, 99-100
